Data Engineer and PhD student in Computer Science with a strong background in economics

Professional Experience

Ssr. Data Engineer

Oct 2024 – Present

Nexton, Miami, FL, USA

Developed and automated data pipelines using Python, FastAPI, and PostgreSQL. Integrated APIs (Zoho, HubSpot, ClickUp, Slack), designed ETLs, and implemented real-time notifications and task automation.

Data Engineer

May 2024 – Oct 2024

Webstarted, Coral Springs, FL, USA

Maintained and created microservices with Azure Functions, built pipelines and data-driven endpoints, queried Azure SQL Server, developed dashboards in Looker Studio, and applied AI solutions for candidate-job matching.

Data Scientist

Sep 2021 – May 2024

Parser, London, UK

Built machine learning models for real estate analytics, improving pricing accuracy and fraud detection for Moody's.

Technical Skills

Languages: Python, Bash, SQL

Containers: Docker, Kubernetes

Cloud: AWS, Azure

Machine Learning: scikit-learn, TensorFlow, NLTK

Orchestration: Airflow, Cron

Education

Ph.D. in Computer Science

May 2025 – Present

Universidad Nacional de La Matanza (UNLaM), Argentina

Focus: Algorithmic matching systems for job offers and candidates.

Postgraduate Specialization Degree in Data Science

2024 – 2025

Universidad Nacional de La Matanza (UNLaM), Argentina

Bachelor's Degree in Economics

2019 – 2023

Universidad Nacional de La Matanza (UNLaM), Argentina

Academic Appointments

Research Associate, UNLaM

2024 – Present

Assistant Professor, UNLaM – Statistics

2023 – Present

Adjunct Instructor, ISTEa, ICARO, CODERHOUSE

2023 – Present

Languages

Spanish (Native), English (Advanced), French (Elementary)

Certifications

Data Engineer Career Path, DataCamp

2022

DevOps, Integration, and Continuous Agility, Universidad Tecnológica Nacional (UTN)

2025
